ClearUP™

Sinus Pain Relief

It's not another pill, spray or flush.
It's the newest WAVE in allergy sinus pain control.

ClearUP is a state-of-the-art technology for sinus pain from allergic rhinitis (allergy to airborne allergens.)

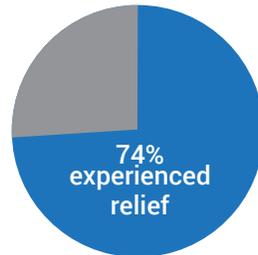

40-60 Million Americans with Allergic Rhinitis*

An allergy attack can happen when you least expect it. ClearUP offers an immediate, drug-free, simple solution. According to the ACAAI, 40-60 million Americans suffer from allergic rhinitis. For some, allergy attacks are seasonal from mold spores or various pollens. For others, suffering can be year-round from dust mites, smoke, pet dander, perfumes, and cleaning products.* The next time you have an allergy attack, reach for ClearUP, the newest wave in allergy sinus pain control.

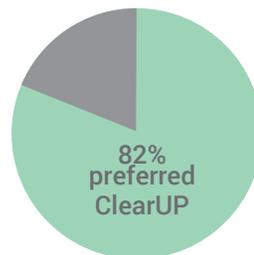

Outstanding results after one five-minute treatment.**

This rigorous study was a double-blinded, randomized controlled, trial conducted at a premier US science research center. The successful results from the overall sinus suffering patient population were presented at the American Rhinologic Society annual meeting in October 2018. Dr. Alan Goldsobel, (Allergist in CA), said "It's very exciting to have this whole new form of treatment using extremely safe neuromodulation as a way to address the needs of the patient." Dr. Subinoy Das, (ENT in Ohio) stated "This is a game-changer."

Study stated that ClearUP is safe and effective.

74% experienced sinus pain relief

82% prefer ClearUP to their current treatment

Unique Benefits

Proprietary waveforms

Clinically proven

Drug-free, non-invasive

No chemical side effects

Quick 5 minute treatments

Portable for home, work, or travel

Features

3 intensity levels for customization

Low, Medium, High
Select the level which is most comfortable

Easy one-button control

Turns on, off and switches intensity levels.

Light and vibration system

Helps users target treatment points.

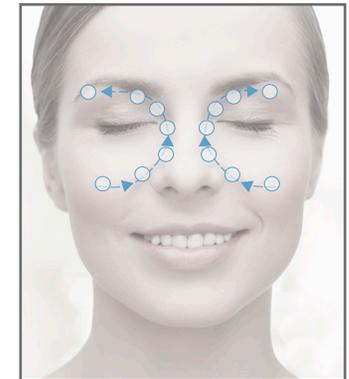

Small, handheld

Ergonomic design for easy handling.

Reusable, Rechargeable

Easy and simple to use

1. User places the device tip on the outer skin of the face and glides slowly along the cheek, nose and brow bone.
2. The unit lights up and vibrates at a treatment point. User should STOP and hold in place for 7 seconds, until the vibration stops.
3. User should Glide, Stop and Hold continuously on both sides of the face for up to 5 minutes.
4. Treat as needed up to 4 times per day.
